## INSTALLATION & USE INSTRUCTIONS

### CONGRATULATIONS!

Your new **LIGHTLINK** Tactical Lighting ARMS #17 Mount is enclosed. **LIGHTLINK** products provide you with the finest in state-of-the-art tactical lighting capabilities, permitting you to use a single tactical light on multiple weapons. **LIGHTLINK** products are the **ONLY** tactical lighting system with recoil shielding built right into the mount.

**IMPORTANT:**  
**READ THESE MATERIALS**  
**BEFORE**  
**YOU USE THIS PRODUCT!**

ARMS #17 Mount  
Recoil Protected Model Shown

**Never** use a **Non-Recoil Protected** **LIGHTLINK** mount, or a factory plastic locking bar, on any weapon larger than a .223 Remington. Any weapon which recoils more requires use of a **Recoil Protected** **LIGHTLINK** Mount, and a metal **LIGHTLINK** replacement **Locking Bar**. Failure to use a **Recoil Protected** mount or metal **Locking Bar** on any heavy recoiling weapon may damage your light, and is a mis-use of **LIGHTLINK** products that will void all warranties.

**Never** disassemble **LIGHTLINK** products. **LIGHTLINK** contains small parts & springs that may cause injury if improperly released. If repairs are required, return your **LIGHTLINK** product to Mounting Solutions Plus.

Your **LIGHTLINK** mount is pre-adjusted for your weapon. If you need unique adjustments, ask your dealer to ship your firearm to Mounting Solutions Plus for adjustment of your **LIGHTLINK** mount. Otherwise, **never** attempt to re-adjust your mount. Improper adjustment can damage your **LIGHTLINK** mount, your tactical light, or your firearm.

**LIGHTLINK** products should **only** be installed by a competent gunsmith or armorer. Improper installation may result in damage to your weapon, light, or mount.

Any disassembly, alteration, re-adjustment, improper installation, or misuse of any **LIGHTLINK** product voids all warranties.

**Never** attempt to attach or detach **LIGHTLINK** or any light to your weapon with a cartridge in the chamber. **Always** unload your weapon first.

**Never** use **LIGHTLINK** or any weapon mounted light as a flashlight. Weapon mounted lights are strictly tactical lights, and are to be used only when lethal force is authorized and unavoidable. **Never** point a loaded firearm at anything you are not authorized and willing to shoot.

**Always** carry spare bulbs or lights when using **LIGHTLINK** or any other tactical lighting system. While **LIGHTLINK** is intended to reduce the amount of recoil force applied to your lighting system, nothing can permanently protect a light bulb from excessive impact or wear through use. All light bulbs will break eventually, and the **LIGHTLINK** tactical lighting capability is limited to **working** lights. Since Mounting Solutions Plus can not control your use of **LIGHTLINK** products with firearms and lights in good repair, Mounting Solutions Plus will not be responsible for failure of your weapon or light.

**Always** avoid lethal situations whenever possible. Tactical lighting products such as **LIGHTLINK** are intended to provide illumination capabilities to persons in unavoidable potentially lethal situations, but no product can fully protect the user from injury or death in a firefight. The knowing use **LIGHTLINK** products, when a potentially lethal situation could be avoided, will constitute an assumption of the known risks of engaging in a lethal situation.

**Never** violate these rules. Firearms are lethal and destructive devices. Violation of these warnings or misuse of any **LIGHTLINK** product may result in injury or death to the user or to others.

**IN OTHER WORDS:**

**USE SOME COMMON SENSE!!!**

**MOUNTING SOLUTIONS PLUS IS NOT RESPONSIBLE FOR YOUR MIS-USE OF *LIGHTLINK* PRODUCTS.**

**USE**

To use your *LIGHTLINK* mount, make sure the weapon is unloaded, point it in a safe direction, and simply snap the tactical light into place on the rail. Pull the light toward you with a ***firm*** and positive motion, until the light seats against the rear block rubber plug. Listen for the "***click***", that indicates that the locking bar is fully seated.

**DO NOT FIRE THE WEAPON UNLESS THE LOCKING BAR IS FULLY SEATED!!!**

Reverse the process to dismount the light, by lifting the locking bar and pushing the light forward until it clears the rail.

Snap The Light On Firmly

The ARMS #17 mount and light can be carried mounted or dismounted and separated.

Mount the light on the rail and the rail on a Picatinny Rail surface.

The thumb switch will be located for easy access from the forearm..

The light mounts and dismounts instantly and without tools.

The ARMS 17 mount installs on most any Picatinny rail surface -- shown here on a Leupold CQ/T scope.

Other **LIGHTLINK** Mounts Include:

Rifle I-Mount On Colt

Shotgun I-Mount On Remington

Forearm Mount

Helmet Mount For Hands-Free Search

The **LIGHTLINK** ARMS #17 Mount permits you to mount Streamlight, Glock, and Laser Devices tactical lights, Springfield Armory tactical lights (requires a rear block spacer), or Surefire's X200 or Millennium lights (requires a different locking bar). The **LIGHTLINK** ARMS #17 Mount will also permit you to mount, when using the **LIGHTLINK** Universal Adapter, other common firearm accessories.

**WARNING**

**NEVER** use a **LIGHTLINK** Non-Recoil Protected mount on any weapon larger than a .223 Remington. Heavier recoiling weapons require use of a Recoil Protected Mount.

**NEVER** mount any tactical light on a heavy recoiling weapon (larger than a .223 Remington) without **first** replacing the factory locking bar with a metal **LIGHTLINK** locking bar. Factory plastic locking bars will not withstand heavy recoil forces and will eventually break.

**Violation of these warnings voids all warranties.**
