Your **LIGHTLINK** mount is pre-adjusted. If you face unique adjustments, ask your dealer to ship your mount or light to Mounting Solutions Plus for adjustment. Adjustment of **LIGHTLINK** mounts by anyone other than Mounting Solutions Plus will void all warranties.

Always make sure you replace the locking bar in your detachable tactical light with a metal **LIGHTLINK** replacement locking bar. Failure to use a **LIGHTLINK** locking bar on any heavy recoiling weapon may result in damage to your light and will void all warranties.

LIGHTLINK products should **only** be installed by a competent gunsmith or armorer. Improper installation may result in damage to your weapon, tactical light, or mount, and will void all warranties.

Any alteration or misuse of any **LIGHTLINK** product voids all warranties.

Never attempt to attach or detach any tactical light to or from a weapon with a cartridge in the chamber. **Always** unload your weapon first.

Never use any weapon mounted light as a flashlight. Weapon mounted lights are strictly tactical lights, and are to be used only when lethal force is authorized and unavoidable. **Never** point a loaded firearm at anything you are not authorized and willing to shoot.

Always carry spare bulbs or lights when using **LIGHTLINK** or any other tactical lighting system. While **LIGHTLINK** is intended to reduce the amount of force applied to your lighting system, nothing can permanently protect a light bulb from excessive impact or wear through use. All light bulbs will break eventually, and the **LIGHTLINK** tactical lighting capability is limited to **working** lights. Since Mounting Solutions Plus can not control your use of **LIGHTLINK** products with firearms and lights in good repair, Mounting Solutions Plus will not be responsible for failure of your weapon or light.

Always avoid lethal situations whenever possible. **LIGHTLINK** weapon mounts are intended to provide illumination capabilities to persons in unavoidable potentially lethal situations, but no product can fully protect the user from injury or death in a firefight. The knowing use **LIGHTLINK** products, when a potentially lethal situation could be avoided, will constitute an assumption of the known risks of engaging in a lethal situation.

Never violate these rules. Firearms are lethal and destructive devices. Violation of these warnings or misuse of any **LIGHTLINK** product may result in injury or death to the user or to others.
